

**EB TRAINING
GROUP**

Training and Compliance just got easier!

We are pleased to introduce EB Training Group, which brings together ECTA and other training groups to make training and compliance simpler for companies across East Anglia.

Training is often where businesses face the most pressure, whether that is keeping up with requirements, organising courses, or finding the right support. By bringing these organisations together with the EB Safety Group we are able to offer a wider range of training options while keeping things as practical and competitive as possible.

EB Safety Group is an established health and safety company and a not-for-profit organisation, with a team of experienced safety inspectors working across the construction industry. EB Training Group builds on that experience, allowing us to offer both training and ongoing support in one place.

- ➔ **Save time, with training organised to fit your company's needs**
- ➔ **Advise on mandatory and skill-specific training**
- ➔ **Support with funding applications and grant claims**
- ➔ **Provide networking opportunities within the local construction industry**
- ➔ **Keep you up to date through meetings, workshops and events**
- ➔ **Support development with training to help your business grow**

For many of you, this will feel familiar. The aim is to continue providing the same level of support you are used to, while giving you access to a broader range of training and resources.

For us, this is a natural step. We are already working with many businesses on site and in the office, and this allows us to support you more fully, rather than you having to go elsewhere for training.

If you would like to have a conversation about what might be useful for your business, just get in touch with the team and we can take it from there.

Built by the industry, for the industry.
